

THE CATHOLIC UNIVERSITY OF EASTERN AFRICA
FACULTY OF SCIENCE

DEPARTMENT OF COMPUTER AND INFORMATION SCIENCE

January 15, 2025

To Whom It May Concern

Dear Sir/Madam,

Re: Attachment/Internship for: Wamuyu Wachira
Registration No. 1049088

The above named is a 3rd year student taking a four -year Degree programme at The Catholic University of Eastern Africa in the Faculty of Science, Department of Computer and Information Science. The student is taking a Bachelor of Science in Computer Science.

The Faculty believes that through Industrial attachments/internships the students will be able to tap a wide range of experience, skills and knowledge that would be difficult to replicate in a classroom setting or through written material alone.

To expedite the process, we are therefore, requesting you to consider our student for attachment within the months of **May-August 2025** when on long vacation and perhaps, let us know how we can proceed to establish the envisaged inter-organization linkage.

I highly recommend the student for any attachment that may exist in your esteemed firm.

Dr. Elicah Wabululu
Industrial Attachment Coordinator
